Dear Peter,

My wife and I would like to commend you & your staff for the super quality job that you have done recently on Monument Square. We have seen your people out there all of last week, planting new flowers, raking & cleaning up the square, standing back & looking at their work, obviously taking pride in the end result. It just looked smashing this past weekend for the big festival.

We have noticed Dandini Landscaping trucks & personnel out numerous other times. What a quality company you have! You obviously really care about your community and have instilled this feeling in your staff. We thank you for bringing so much joy & beauty to the people of Leominster.

Sincerely,

Richard Storrs, Jr.
